Ricardo Peña will make all necessary changes to the resolution, and resolution will be presented to the appropriate Convencion representative.

2nd order of business:

Committee went over in great detail the GLDP training we are going to try and institute this year. The GLDP is a training program created by USHLI, and was developed to create a dialogue between, public citizens, and public officials on civic matters. The committee is putting together a presentation on the GLDP program to be introduced at CONVENCION, through the workshop training.

3rd order of business:

Committee tried to establish a budget to present on post-convencion activities in relation to programs developed through the Civic committee and the GLDP program. That budget proposal will be sent to Andres Gonzales of the Hispanic Round Table.

Concluded with a determination on the next meeting date for the Civic. The next meeting of the CIVIC INVOLVEMENT COMMITTEE will be held on September 6, 2006. A meeting location is still in the works.
